

**MICROBIOLOGICAL SAMPLE
 SITE PLAN
 Zones 1 - 7**

Please type or print legibly and submit the completed plan to the Department

| | | | |
|---------------------------|--|-----------------|--------------------|
| Name of System: | | PWS ID#: NE31 | County: |
| Submitted For Year: 20 | By (Signature; Typed name if submitted via email): | Date Submitted: | Population Served: |

For All PWS:

- A. Title 179 NAC 26 requires owners of all public water systems (PWS) to submit sample site plans. Public water systems are required to submit updated plans whenever sample sites are changed or when deemed necessary by the Department.
- B. Use only street addresses or 911 addresses for all sample site location designations.
- C. **If population is greater than 4,900**, please indicate which week of the month samples will be collected.
- D. **A written procedure for selecting Repeat Monitoring Sites may be submitted in lieu of identifying Repeat sites below.**
- E. **Groundwater Rule (source water) sample sites** must be shown in the table at the end of this form.
- F. If your system has more than one service connection, you are required to submit a sample site map showing all identified Routine and Repeat sample sites, underground water piping, wells and water storage location(s) with this list.
- G. Regulations require that you keep a copy of this sample site plan for your records.

For Non-Transient Non-Community and Transient Non-Community PWS: Please complete this form in its entirety. Five (5) sample sites are required if you have enough buildings/service connections. If you have more than 1 building/service connection, submit a sample site map/drawing showing all identified Routine and Repeat sample sites, underground water piping, wells and water storage location(s). Please describe your sample sites as completely as possible. For example; kitchen sink in Main Lodge, wash sink in Cabin #4, or yard hydrant at camper spot #4, etc. If you have any questions, please contact the Department at (402) 471-0521.

| Sampling Zone | Routine Monitoring Sample Sites | Repeat Monitoring Samples Sites within 5 service connections (1 = Upstream, 2 = Downstream, 1A1, 1A2) |
