

# Make sure you're **prepared**

Are you applying for Medicaid? Or just getting everything you need together to prepare for later in life? There are a variety of documents and information that you will need to have ready for these scenarios.

**The Nebraska Department of Health and Human Services can help. Videos outlining the needed documentation are now available on the DHHS website.** The guides will walk through the different categories to make sure that you're prepared. These include:

**Financial Preparedness for Long-Term Healthcare Needs:** This is important information you need to share with loved ones and/or representatives while planning for the future, including legal documents, assets, and insurance policies.

**Medicaid Long-Term Care Documentation Guide:** This will cover the required information and documentation when applying for Medicaid, such as personal information, income, and resources.
